

NORTHERNGASHEATING
so comfortable, so affordable

...the best FOR LESS

At Northern Gas Heating our mission is to deliver better service and better prices than any other central heating company. As a Northern Gas customer we guarantee you will get an installation and a price that's just right for you.

Our first priority is your comfort, which is why we only recommend a system for your home after a comprehensive survey of your property by one of our highly experienced team of technical advisors. Because we take the time to do this, our service is guaranteed to be way above the industry standard. Everything we do is designed to ensure that your system will match your family's routine and be able to cope with unexpected demands.

Then there's affordability. Whether you install a new central heating system or replace your boiler, we'll ensure your investment is built around your budget.

Controllable warmth and hot water, comfortable living, reduced energy costs, added value to your home – all at an affordable price and backed by our unbeatable, free, Comfort total peace of mind five-year warranty. That's what we mean when we say we deliver total peace of mind.

“ Choosing the right heating company involves a lot of trust. With Northern Gas everything was fantastic. ”

Mr. & Mrs. Cowie
Peterborough

“From start to finish, the overall standard of workmanship and products were excellent.”

Mrs. Kennedy
Liverpool

PRODUCTS ...our products your choice

Passionate about quality and dedicated to service, we make sure that our range of products is designed to cater to your specific needs. Our role is to take the hassle out of heating systems and we do this by guiding you through the maze of different products and systems to ensure that what we install is perfect for your home and your lifestyle. Above all, we only install products that comply fully with British Safety Standards and manufactured by leading brand names.

The science and technology of central heating systems is unrecognisable from what it was only a few years ago and we use our proven expertise to source and install only the finest, most technically advanced products. Our rigorous checks ensure that every product is tested for quality, reliability and performance. We also pride ourselves on installing products designed to add to the

aesthetic appeal of your home. Slim and elegant, many of our boilers free up valuable room space and can be installed virtually anywhere and every one of our stylish radiators comes complete with factory-fitted side panels and a top grille as standard.

When we install a central heating system, we ensure it fits around the demands of your lifestyle. By fitting our latest controls, you'll have access to an intelligent heating system that reacts to changes in temperature and provides different levels of warmth in each room, as well as giving you hot water whenever you need it. It is this passion for installing only the best, most adaptable systems at affordable prices that has earned us such an outstanding reputation. We save you money, reduce waste and make sure you can depend on the perfect ambience, whatever the season.

INSTALLATION

...in five easy steps

Very simple and very effective – our five-step installation plan means the perfect heating system is in your home with the minimum fuss and the maximum speed.

- 1 Having undertaken a comprehensive survey, established your specific needs and matched the system to your lifestyle, we arrange an installation date that's most convenient to you.
- 2 We give you a target completion date, so you know exactly when you'll get the comfort, warmth and security you deserve.
- 3 Your peace of mind is important to us and before the installation takes place we'll call and give you the name of your engineer and time of arrival. For added security we can even arrange a password and we promise that our engineers will treat your home with same respect and consideration they give to their own. They will explain everything they're going to do, answer any questions you may have and when the system is installed, they won't leave until you have complete understanding of how to use the system.
- 4 Our reputation is built on customer recommendations, which is why we always call you after the installation is complete to check you are completely happy with everything.
- 5 When the installation is complete, on selected boilers our free Comfort total peace of mind five-year warranty, gives you security. Should anything go wrong, it will be promptly and professionally dealt with - and it won't cost you a penny!

“The
central heating
installation by Northern
Gas was second to
none. Everything was
explained perfectly.

Mr. & Mrs. Barnes
Altrincham

”

“ Thanks to the comprehensive warranty, I know I can rely on my new heating system for years to come.

TOTAL PEACE
OF MIND
WARRANTY

When you choose Northern Gas you are choosing exceptional service, affordable pricing and total peace of mind.

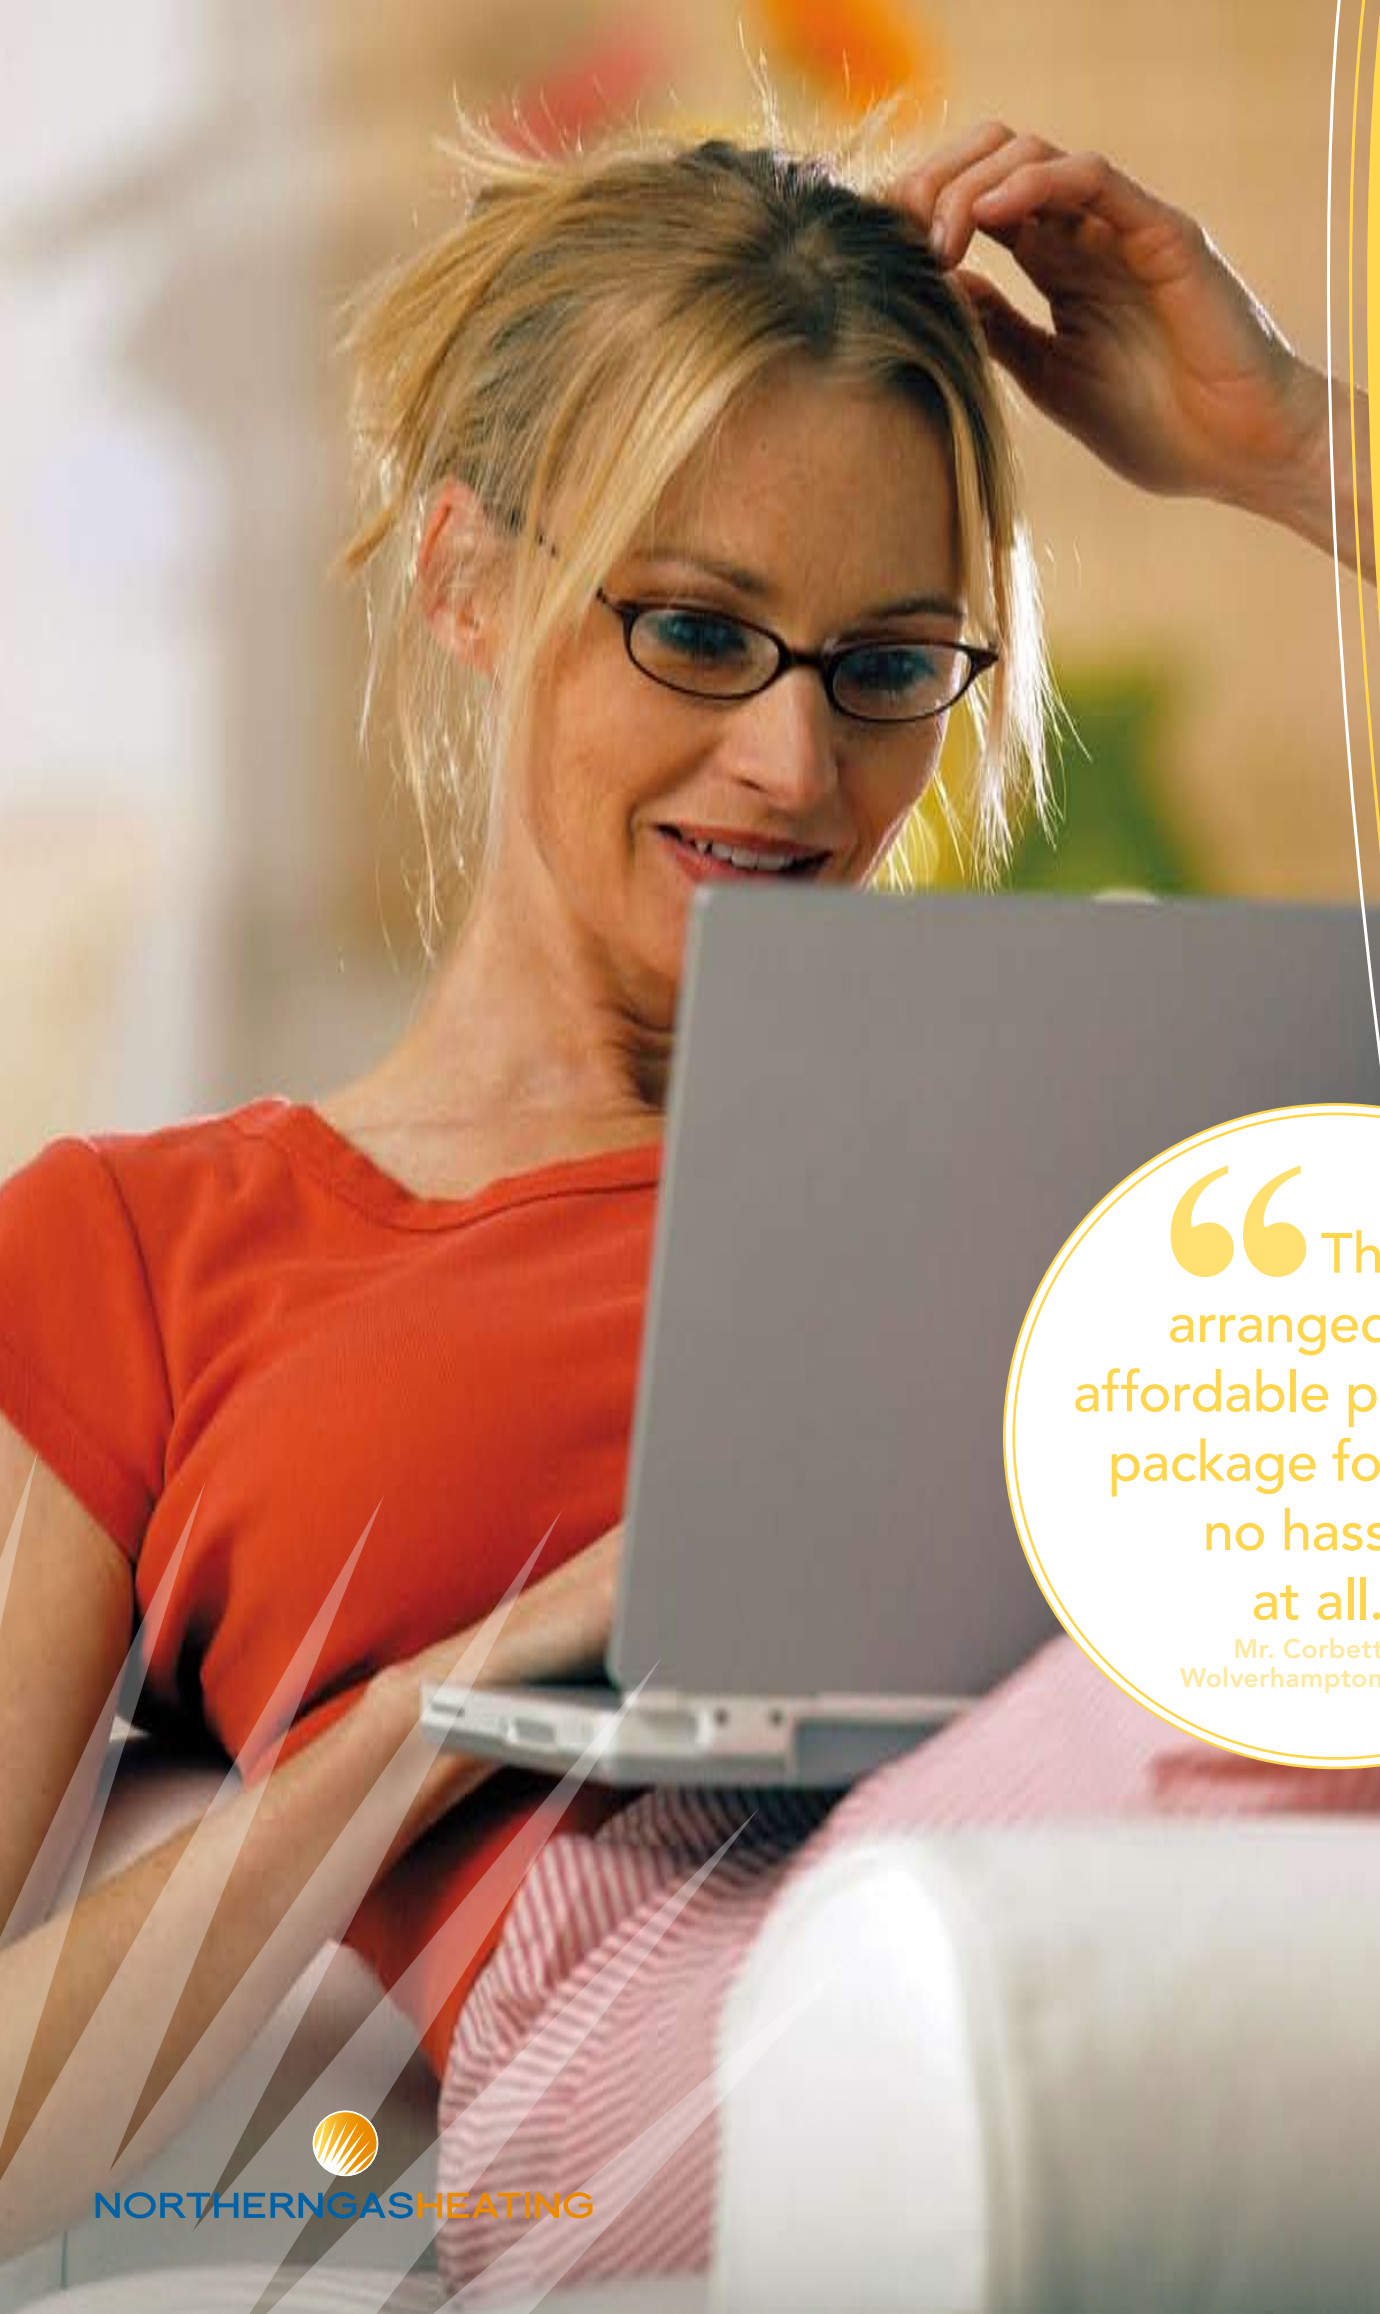

We are the only company in the UK to give all our customers a completely free, five-year warranty. We guarantee that a fully qualified CORGI engineer undertakes every installation and when finished to your total satisfaction, you have the security of knowing you have the protection of Comfort. Offering unbeatable cover on your boiler, radiators, controls and pipework, Comfort is:

- Completely Free • Valid for five years on selected boilers
 - Guaranteed to save you up to £1000 over five years
 - Tried, tested and proven • The only warranty of its kind you will ever be offered

Thousands of homeowners have enjoyed the unique benefits of 'Comfort' and completely eliminated the need for expensive cover plans. All we ask is that you have the system serviced once a year and we'll give you an extra year free on our four-year service package. We don't just say we deliver more to our customers, we do it!

Our 5 year warranty is guaranteed to save you up to £1000

afford 
FLEXIBLE WAYS TO PAY

...tailored to your
individual needs

“They
arranged an
affordable payment
package for me -
no hassle
at all.”
Mr. Corbett
Wolverhampton

We never compromise on comfort and we never compromise on affordability. We make sure that every Northern Gas customer has access to Afford - our range of easy payment options, underwritten by reputable companies you can trust.

As with the installation itself, what matters to us is your total peace of mind and while many large central heating companies tie their customers into ten years of repayments and many small companies can't offer payment options, we provide real flexibility. Just like our systems, your package is tailored to your individual needs. You can benefit from low cost finance options, which give you the choice to vary your monthly payments to match your budget and it can all be arranged in the comfort of your own home by one of our experienced advisors. There's also the additional advantage that when you choose Afford, your warranty is fully underwritten under the terms of the Consumer Protection Act.

When it comes to investing in a new central heating system, Afford is designed to keep you in control of your finances and to make paying for your home improvement as comfortable as living with it.

ENERGY EFFICIENCY

...efficient for you and the environment

When you choose Northern Gas, you are choosing to care for the environment. We are continually sourcing the most efficient products and have tested the efficiency of many products ourselves. We also work closely with manufacturers in the research and development of new, ever more efficient products. As well as installing only the most energy efficient systems, we also give you the best advice on saving energy around your home. For example, a boiler from Northern Gas can save over a third on your fuel bills and it can also reduce the emissions that cause climate change.

Our policy is to source only the most environmentally-friendly systems, so if conserving energy is important to you, we guarantee we'll help you do your bit to ensure a sustainable future.

“ It's good to know I'm saving money and helping the environment.

Ms. Webber Lichfield

”
